

Chromosome 1 443 genes in physical order

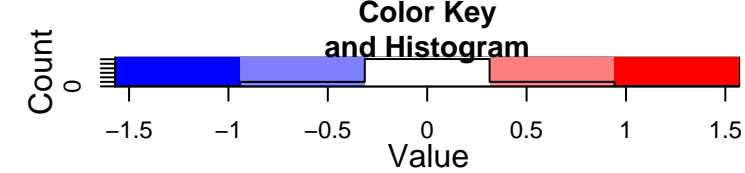

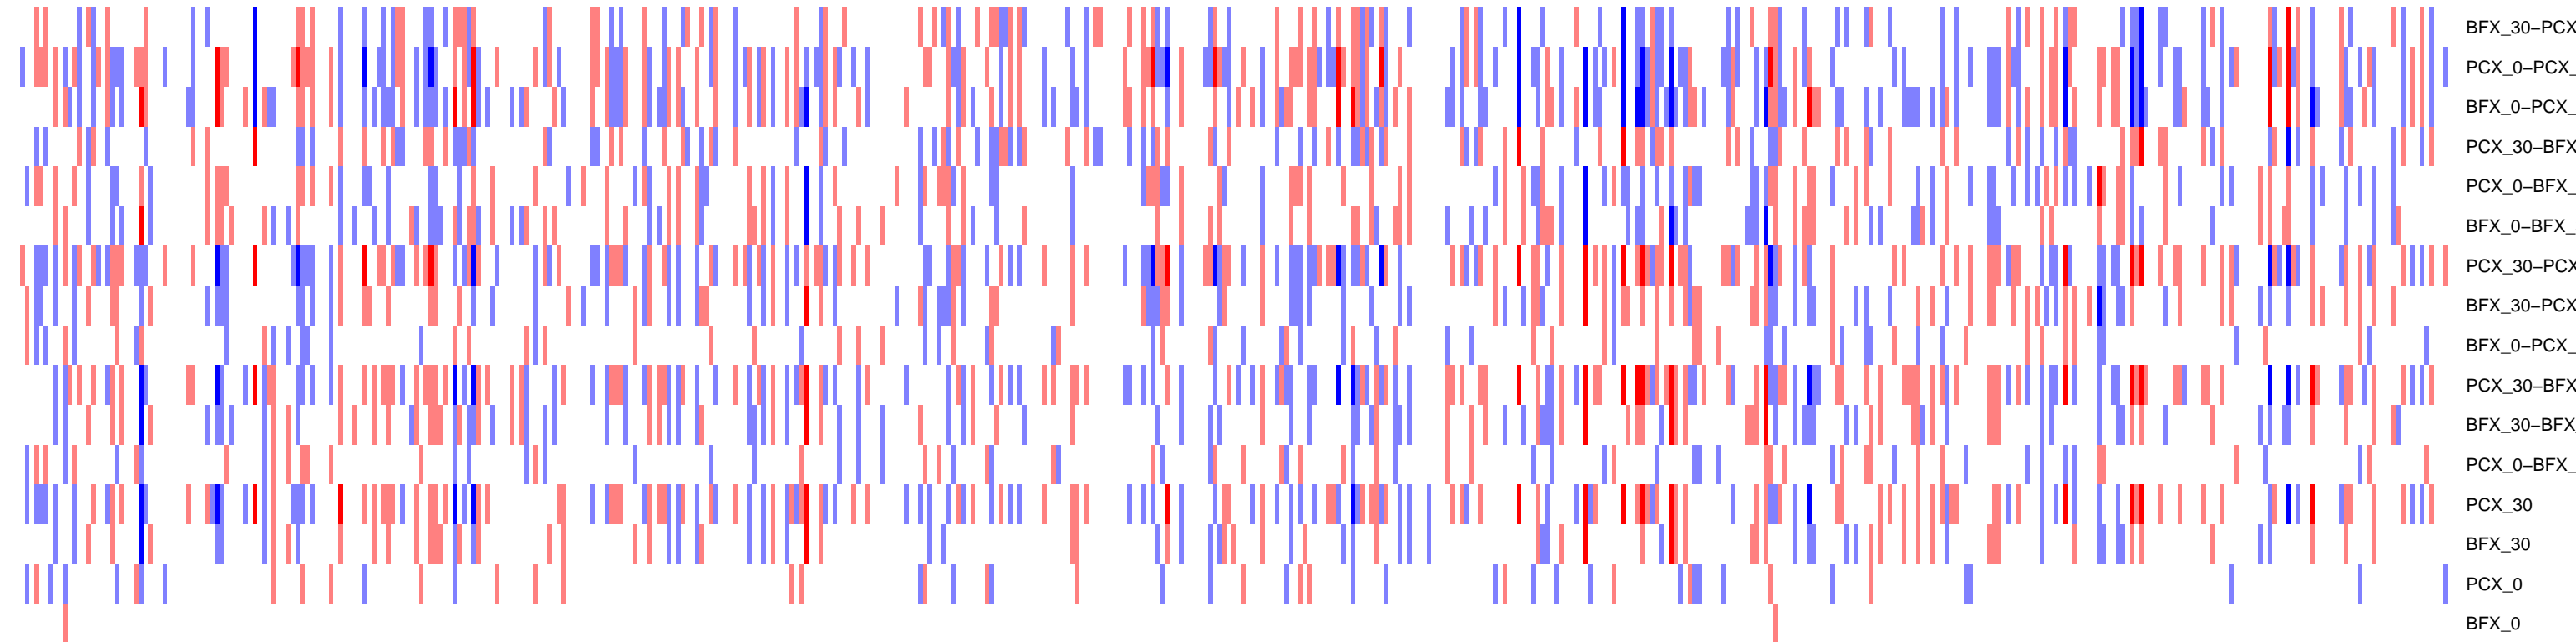

Chromosome 2

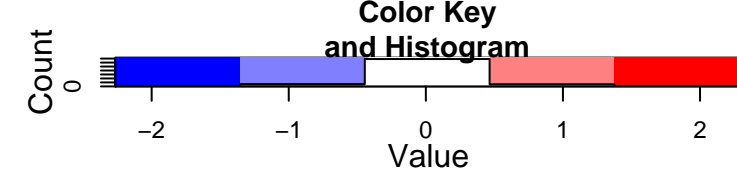

266 genes in physical order

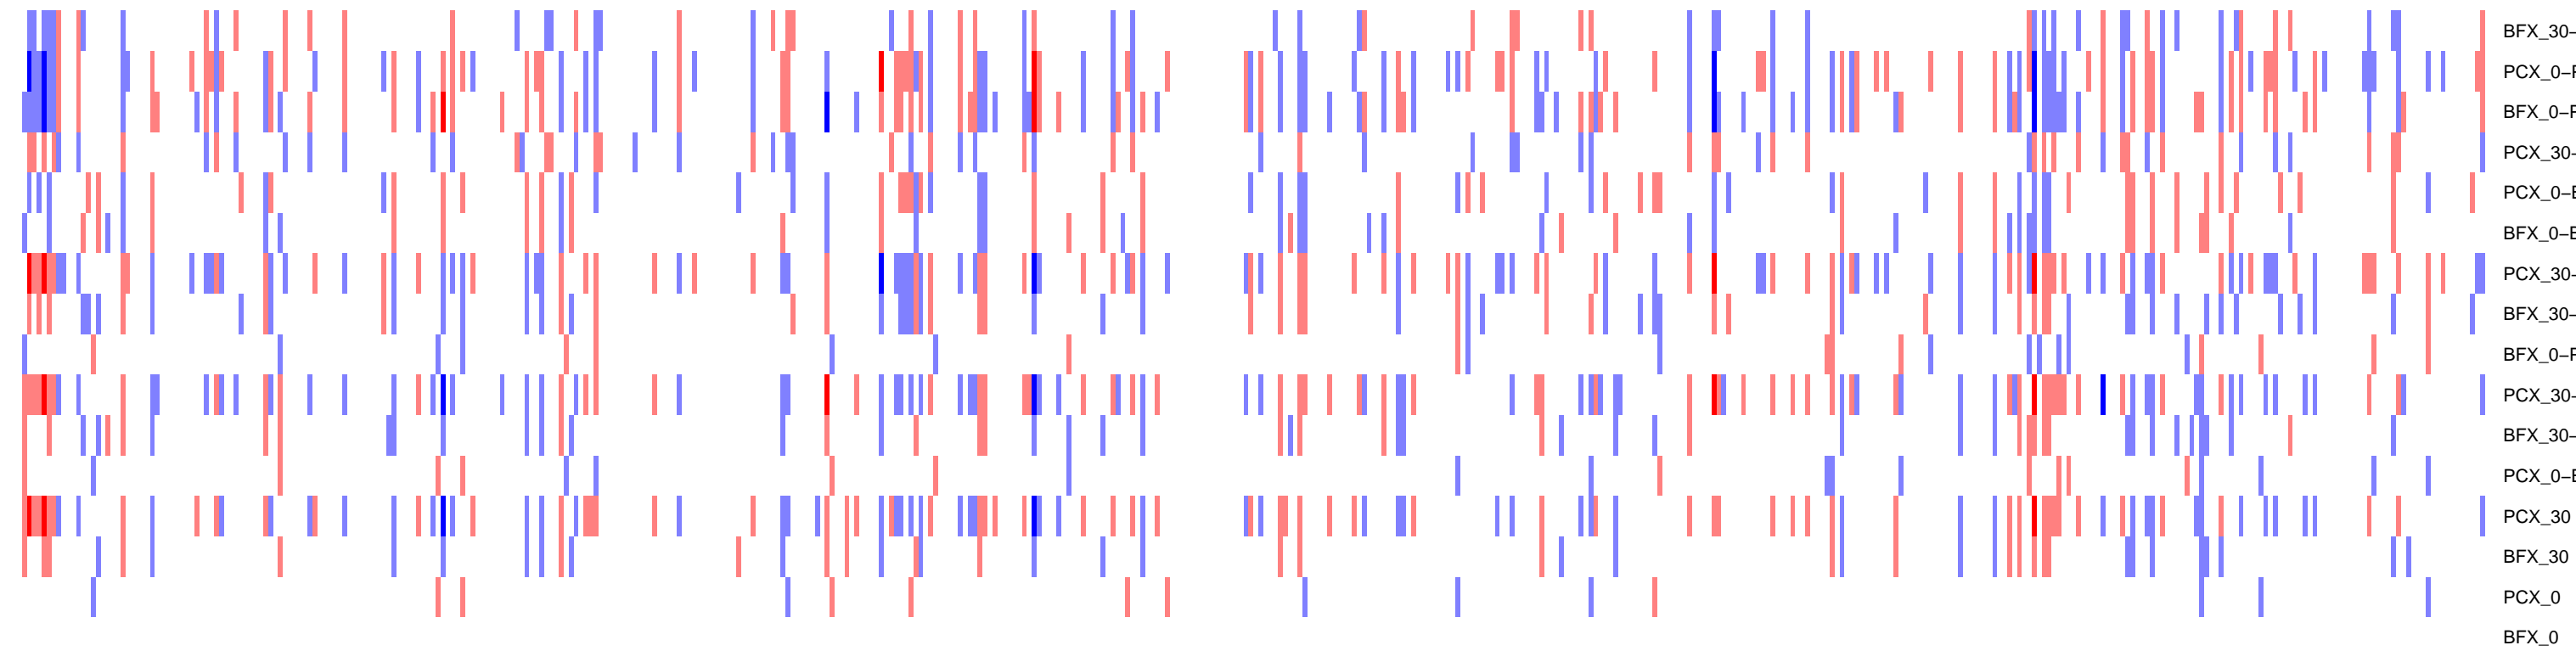

Chromosome 3 512 genes in physical order

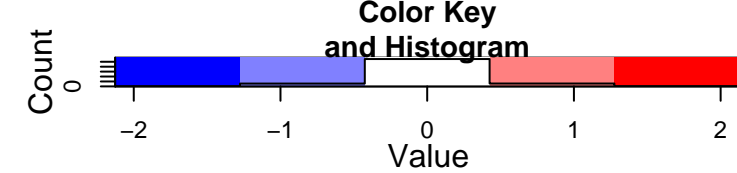

Chromosome 4

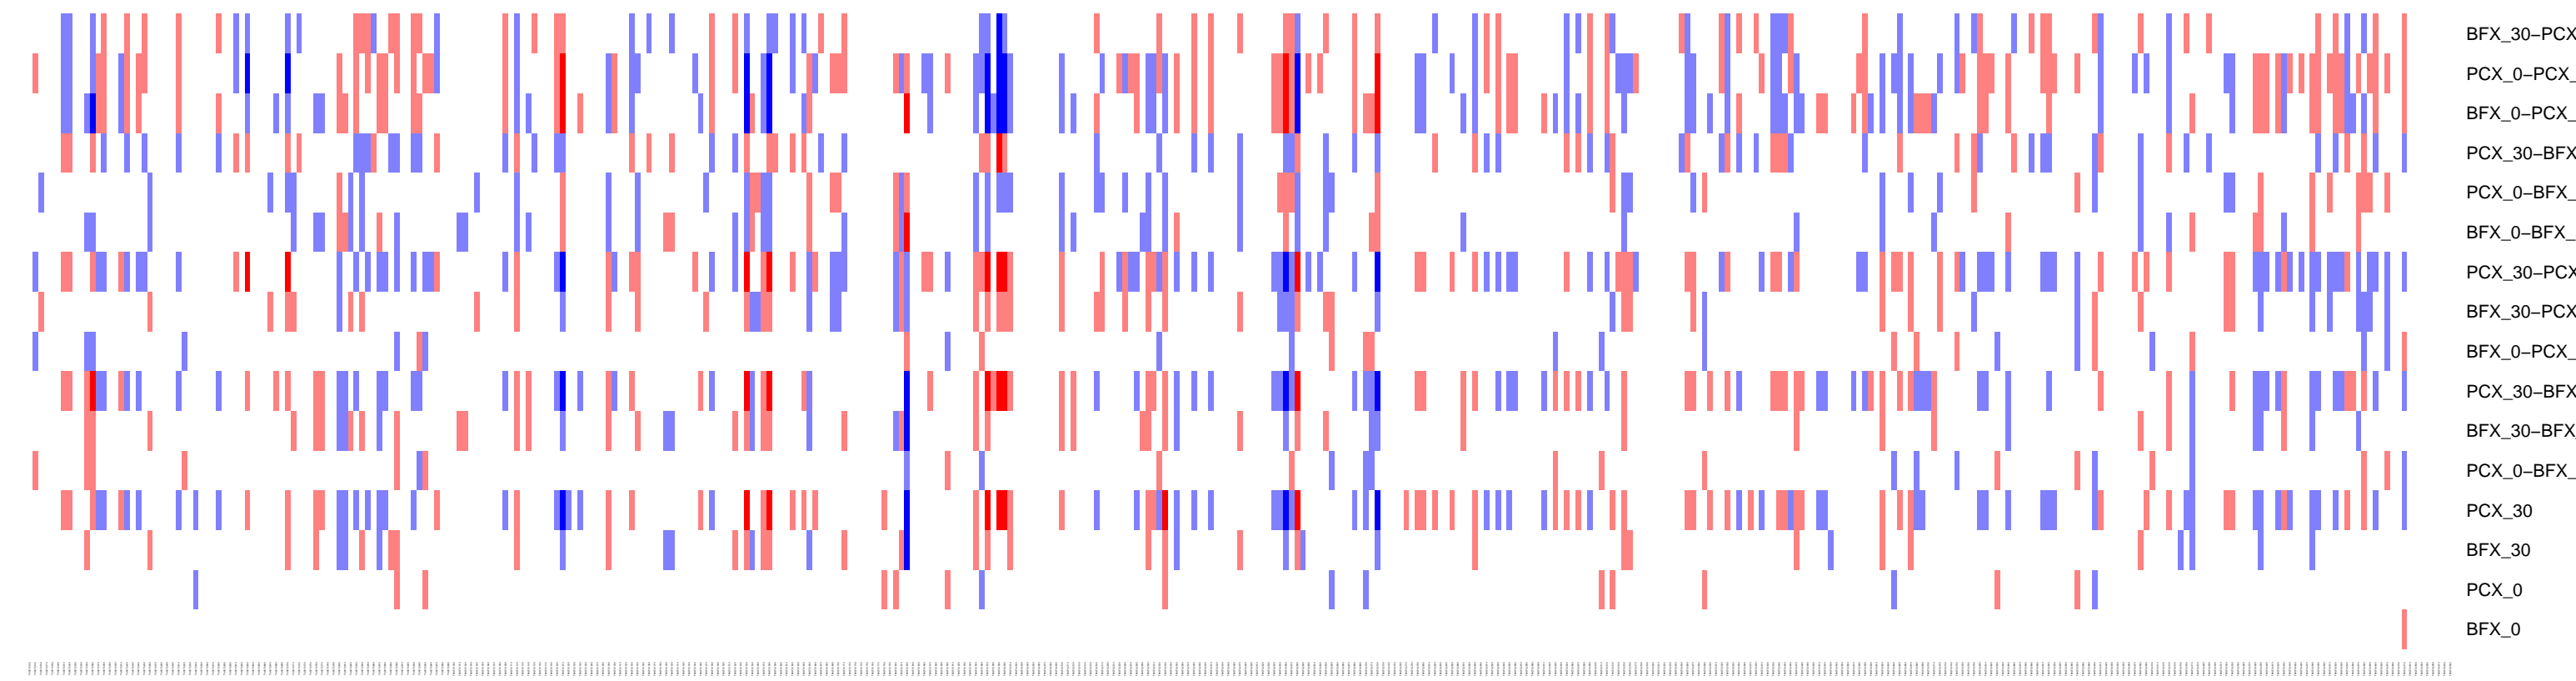

502 genes in physical order

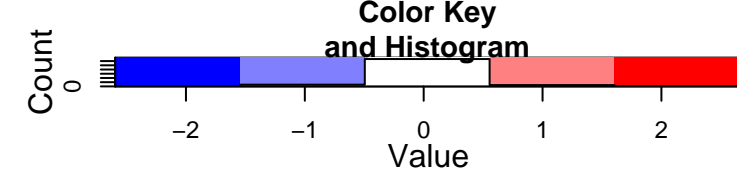

Chromosome 5

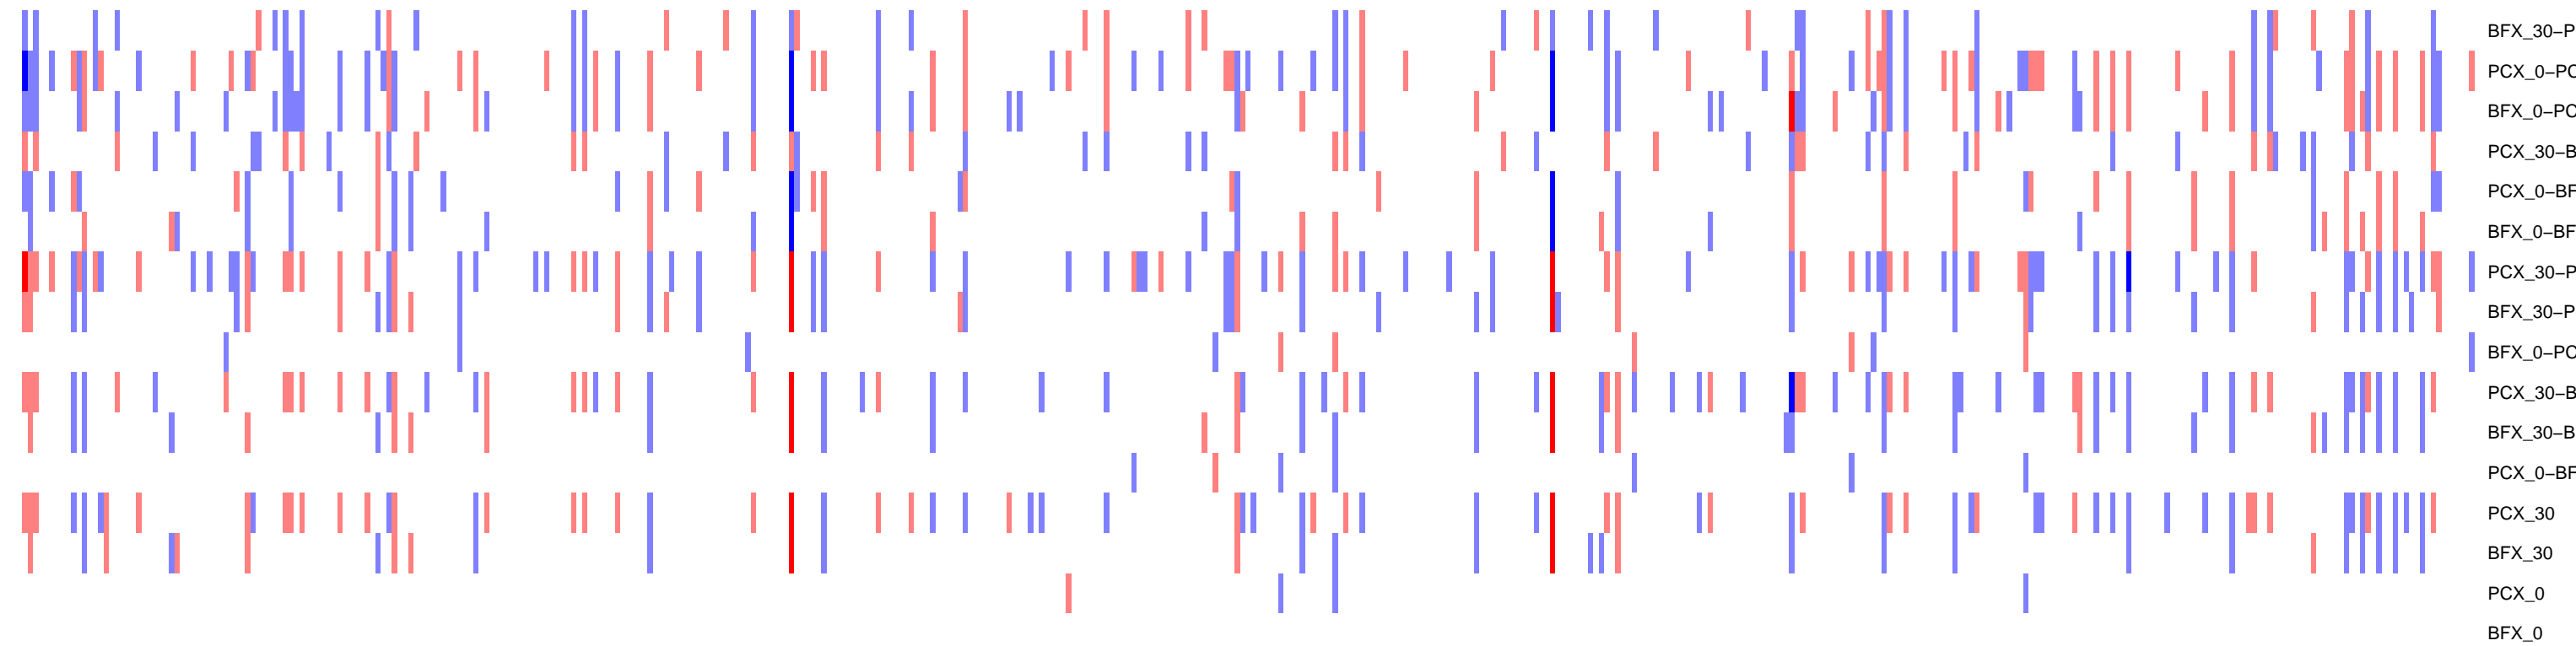

423 genes in physical order

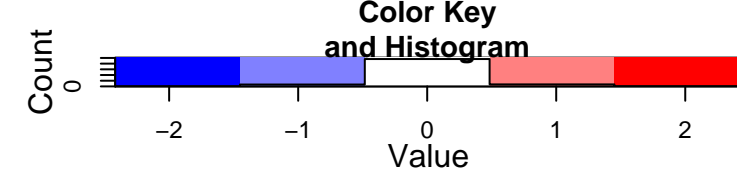

Chromosome 6

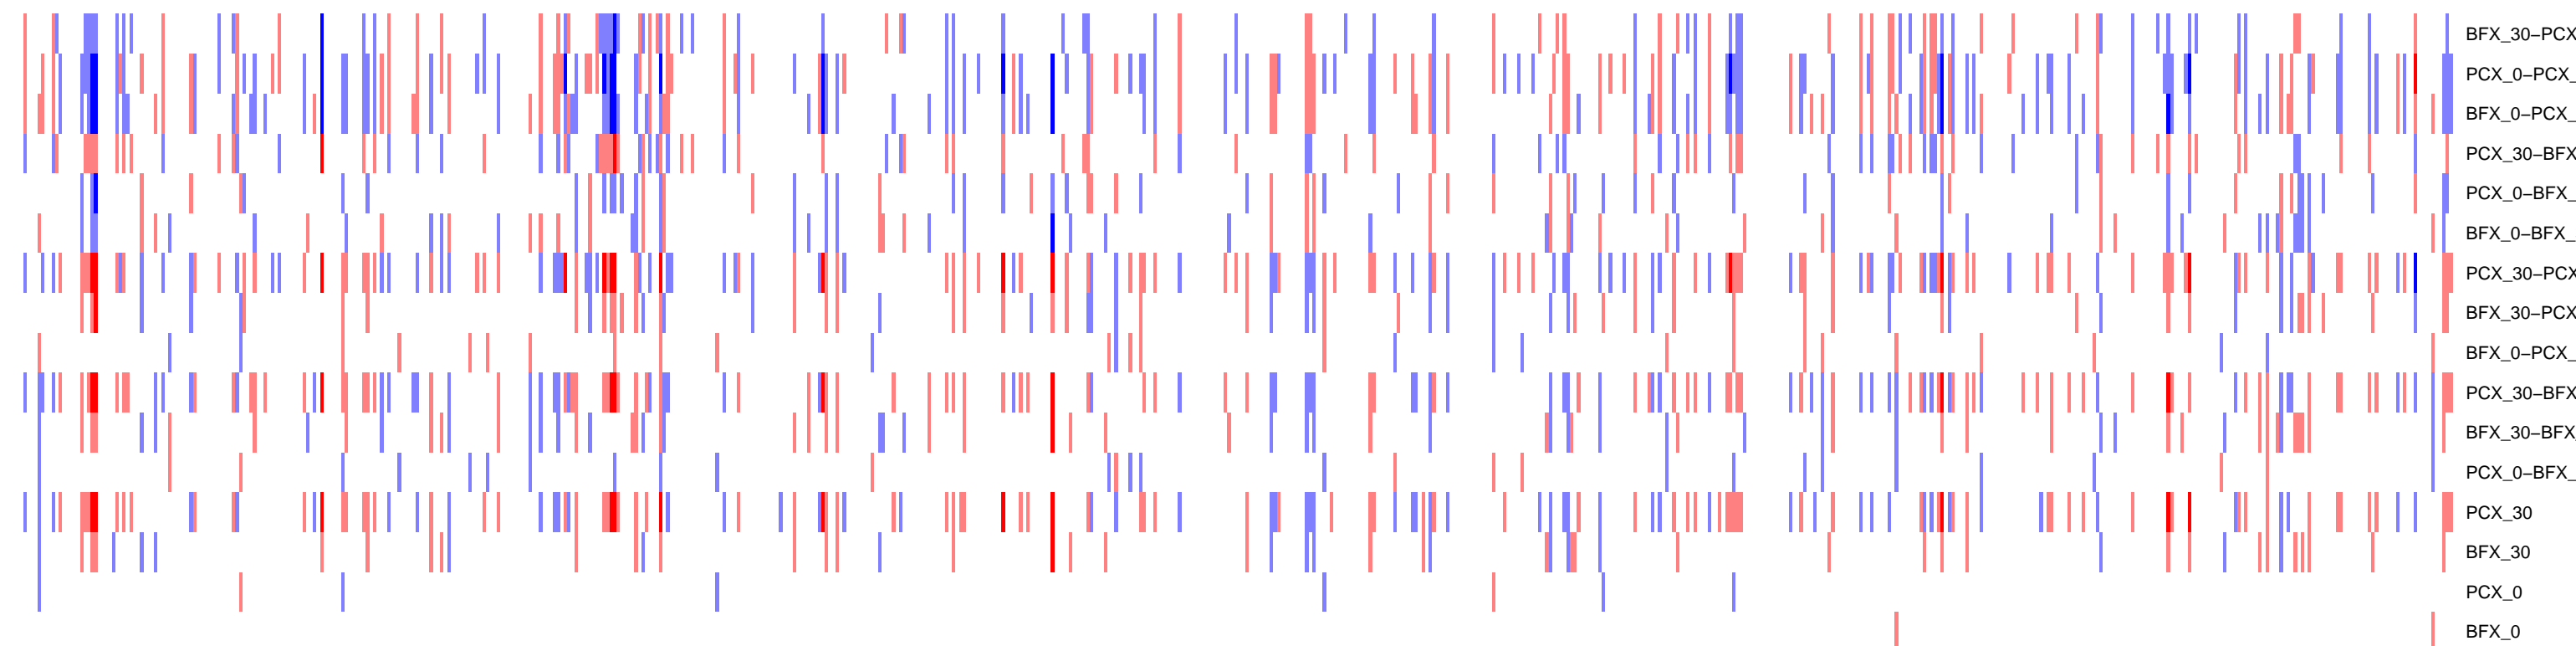

452 genes in physical order

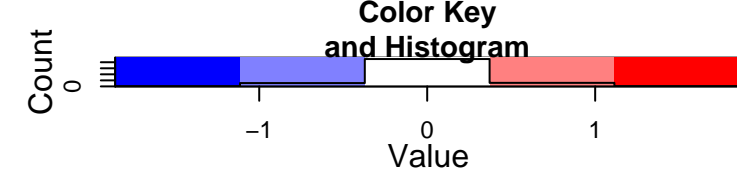

Chromosome 7

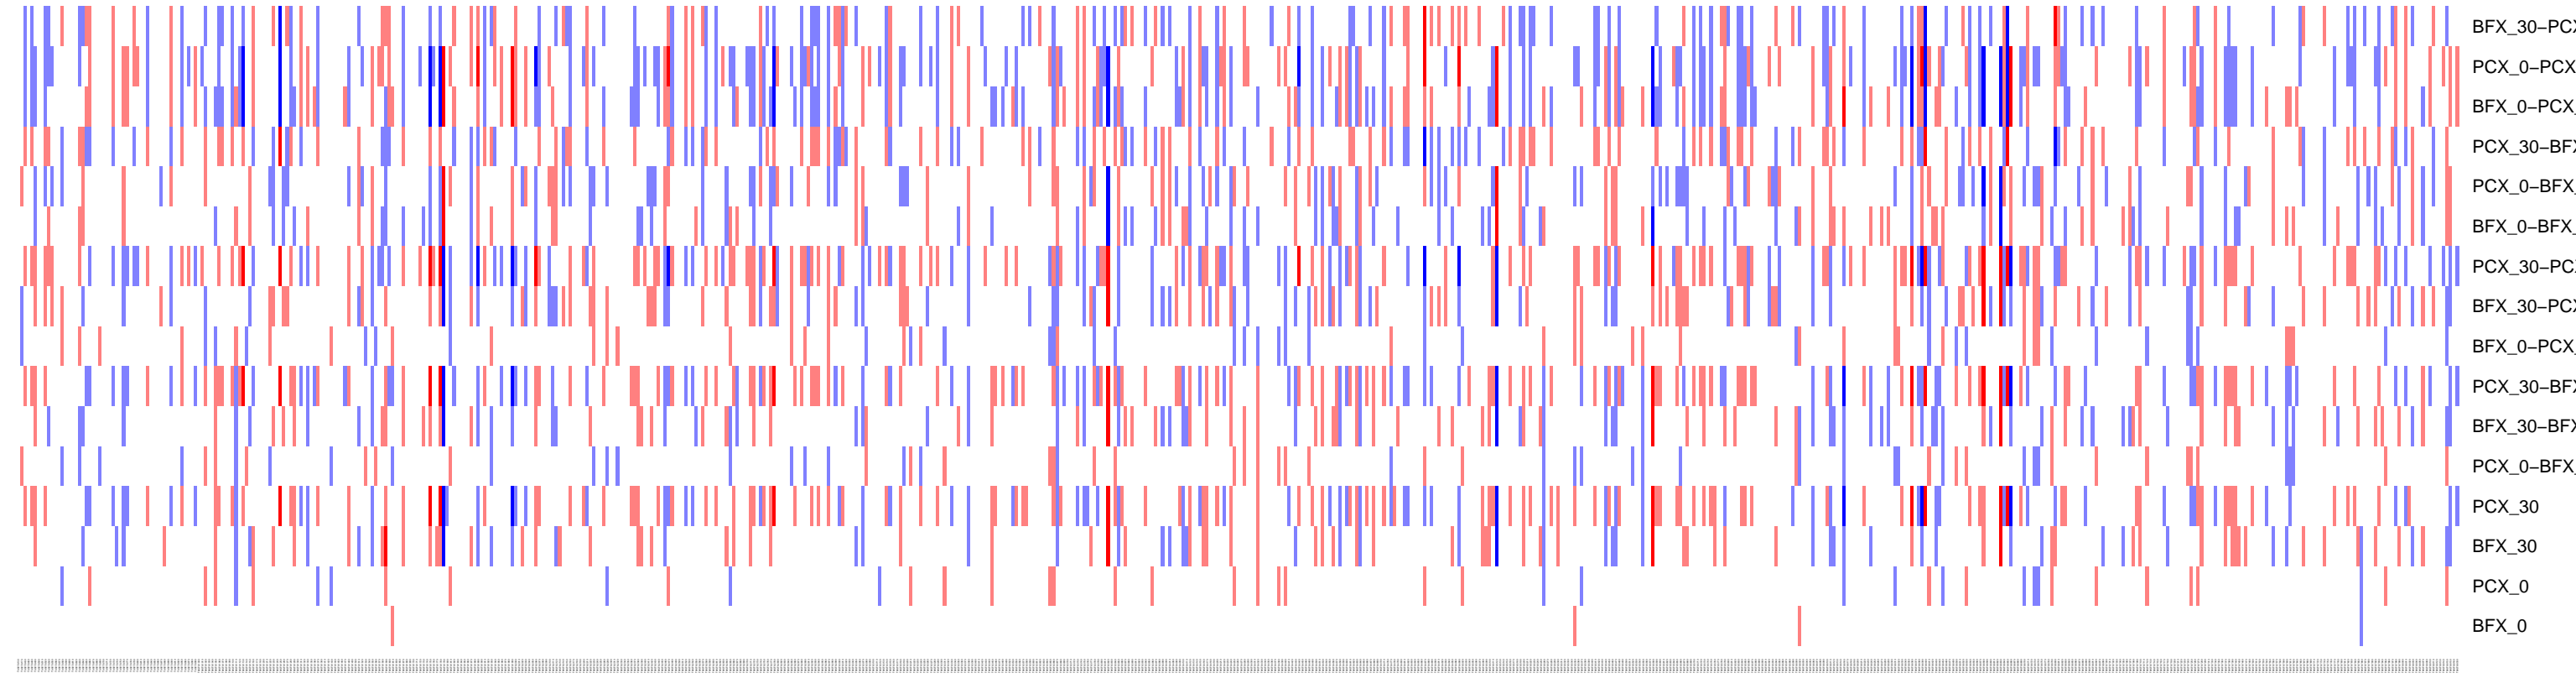

690 genes in physical order

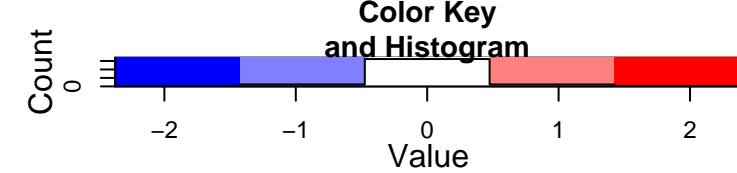

Chromosome 8

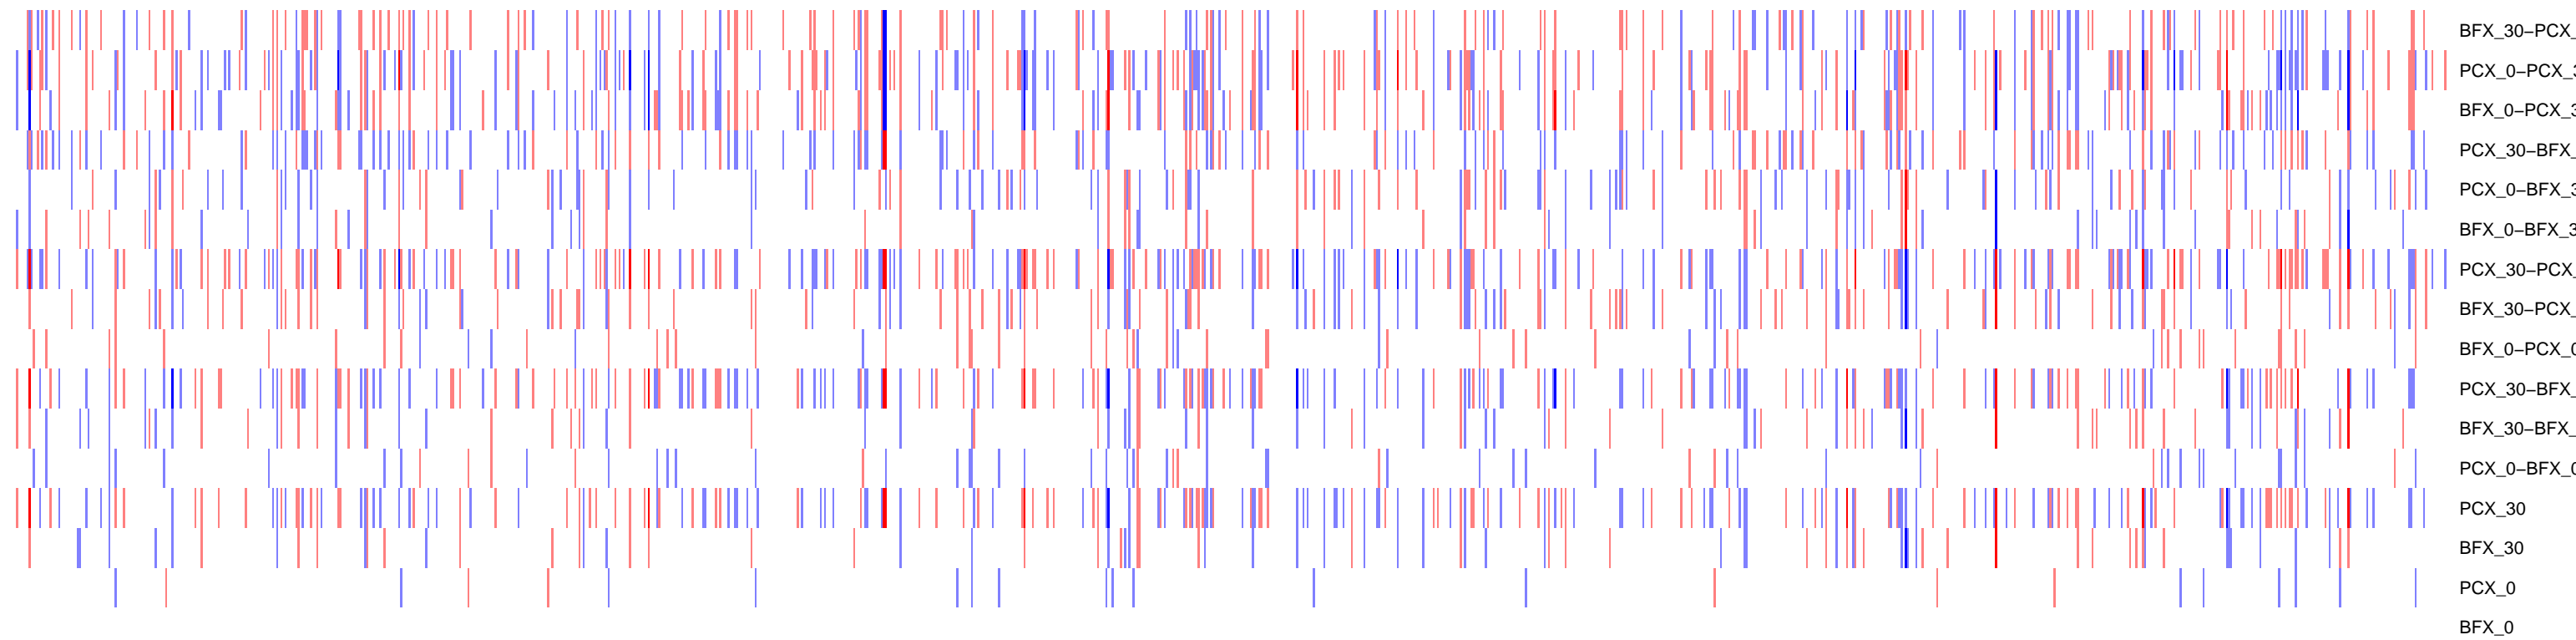

717 genes in physical order

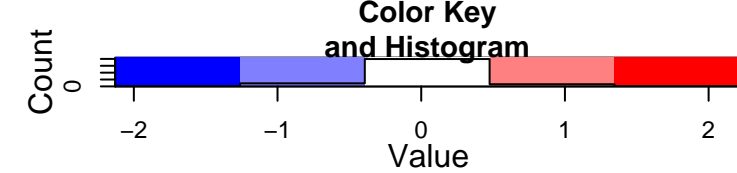

Chromosome 9

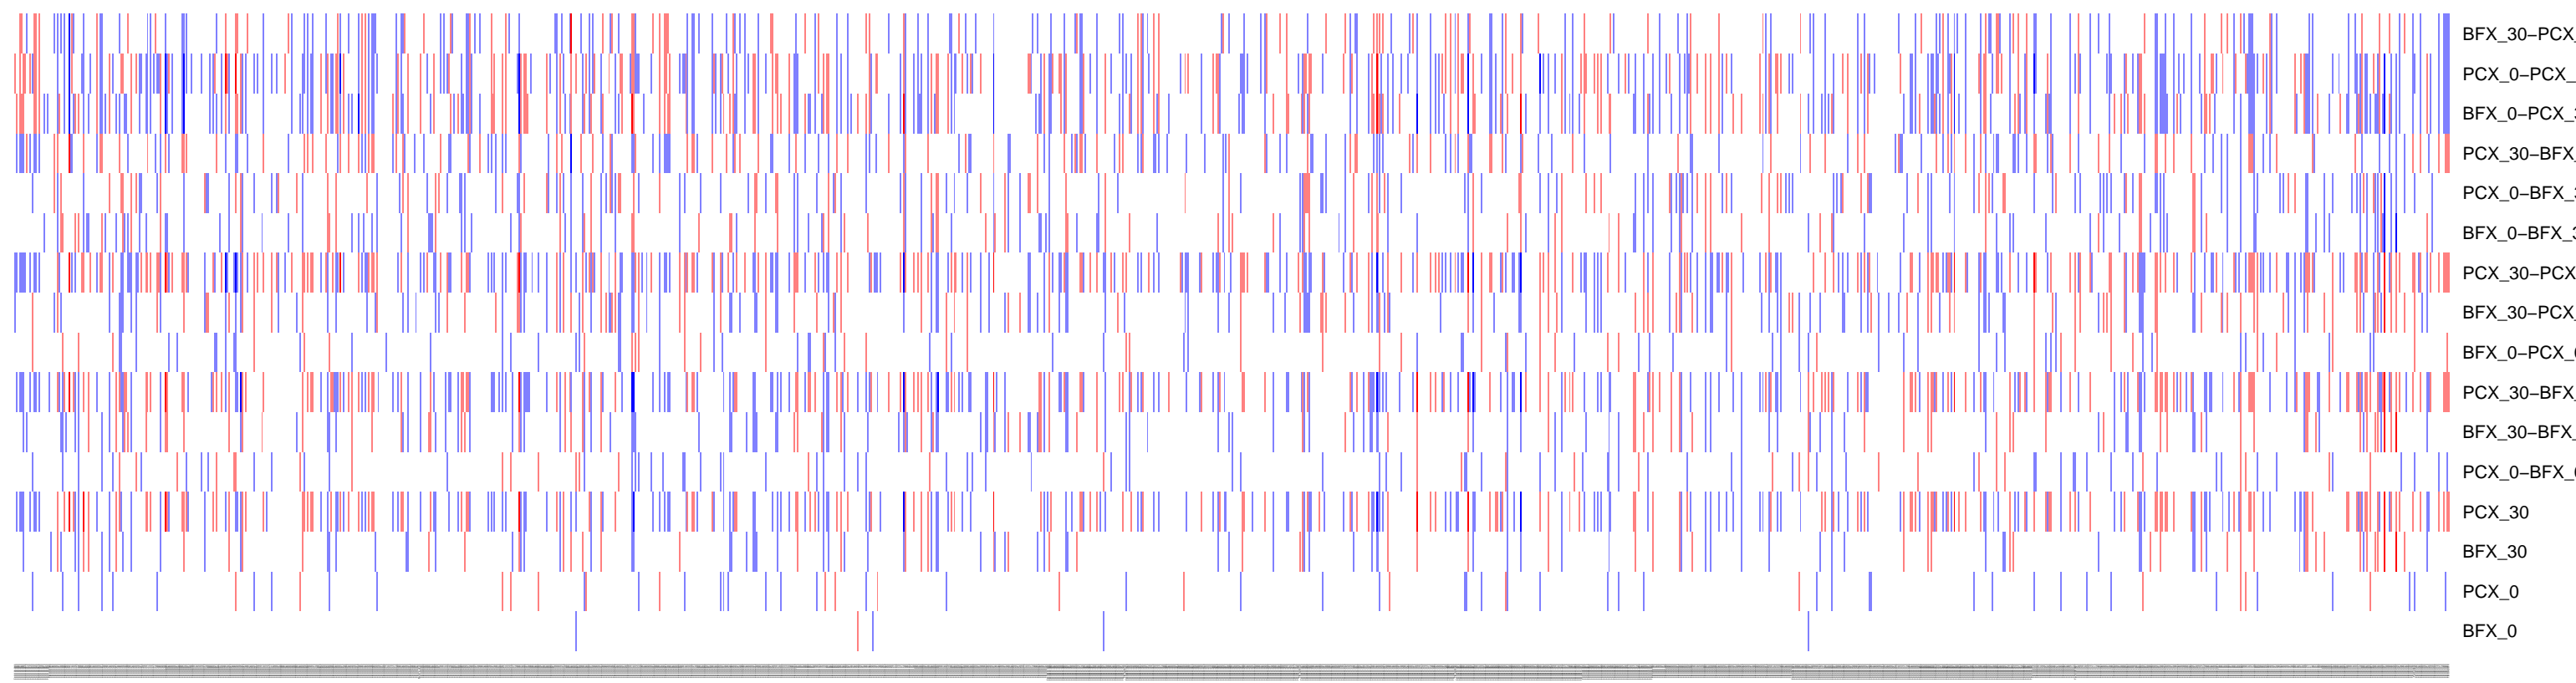

1159 genes in physical order

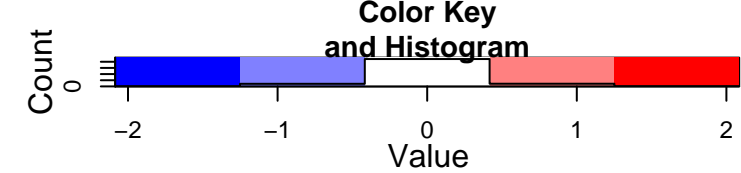

Chromosome 10

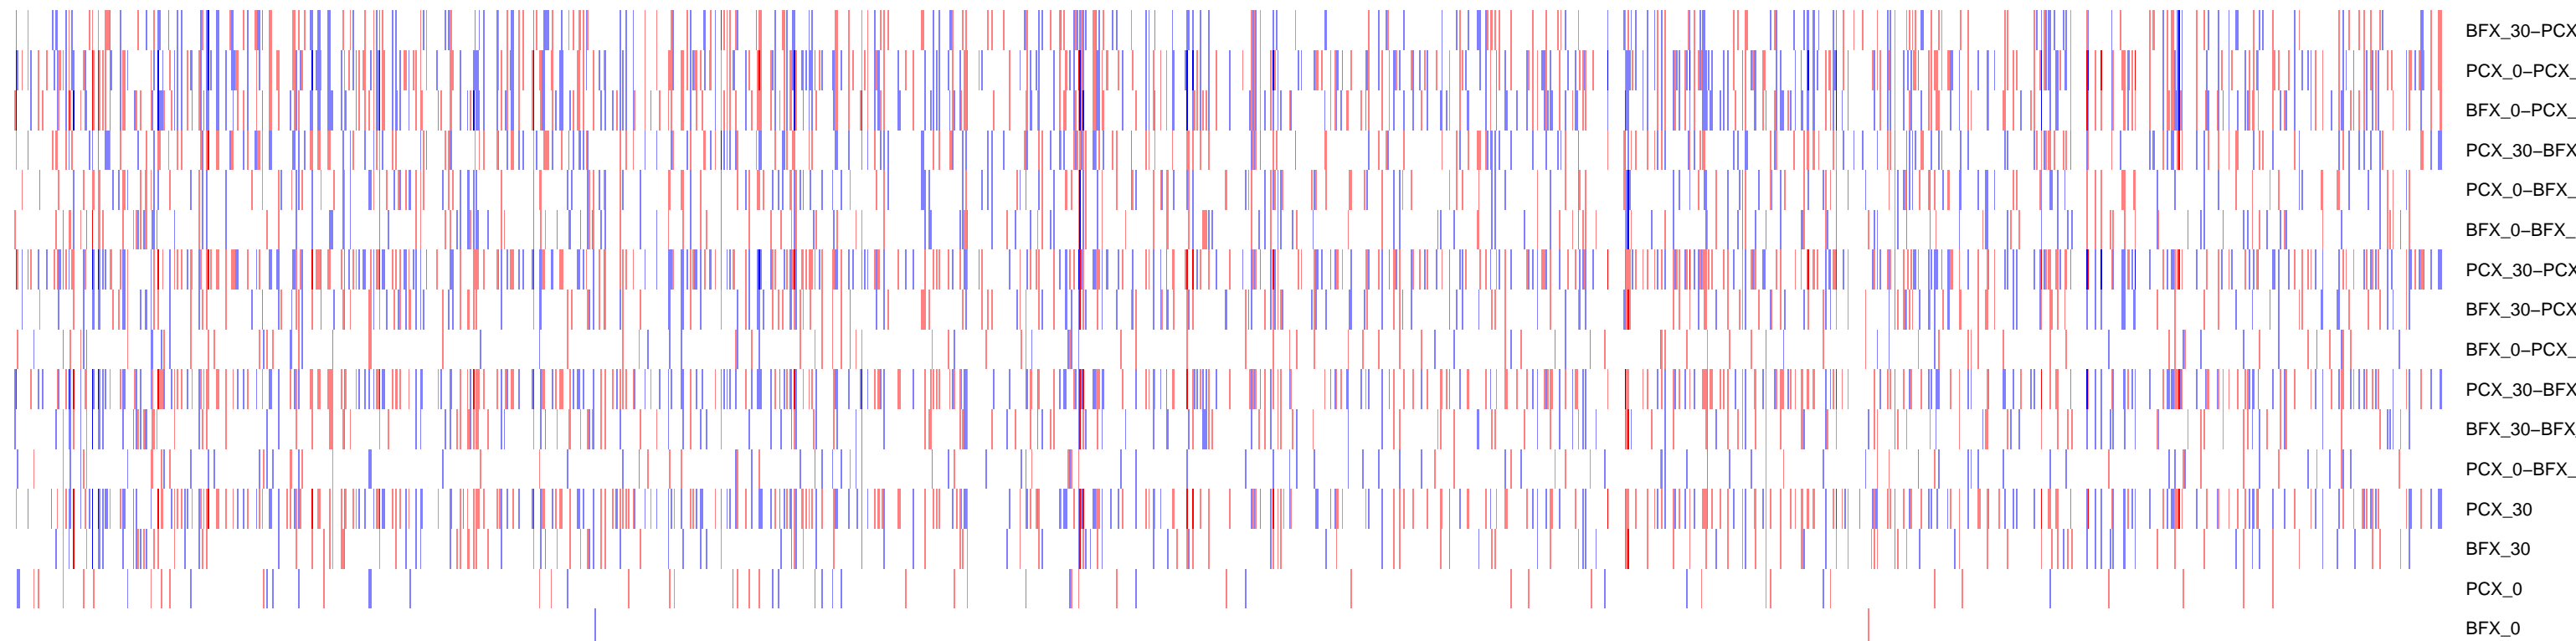

1488 genes in physical order

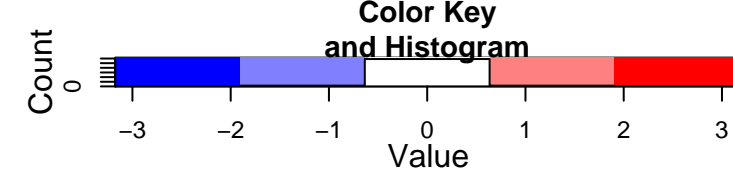

Chromosome 11

1664 genes in physical order

No chromosome mapping 778 genes
